To whom it may concern

This is to certify that I have known Barbara Roberts for 6 years in a professional capacity.

During that time I have found her to be completely professional and trustworthy.

I can attest to her good fame and character and I am not aware of her involvement in any misconduct.

I have no hesitation in endorsing her application to become an Authorised Representation with SAN.

Please do not hesitate to contact me should you require further information.

Kind Regards

Kenneth Carson
